BLOCKADE IS RAISED

Allies Lift Embargo of Grecian
Ports and Allow Discharge
of Cargoes.

(Special to The Herald)
Athens, Greece, June 24—The great
blockade was today raised for the
first time since it was put into ef-
fect to compel Greece to accept the
demands of England, France and
Russia. As the result of lifting the
embargo many Greek merchant ves-
sels held at Athens were freed and
their much needed cargoes allowed to
be discharged.

POPE USES HIS INFLUENCE

Asks President Wilson and
Gen. Carranza to Try and
Avert War.

(Special to The Herald)
London, June 24—Pope Benedict
XV has sent a communication to
President Wilson and General Car-
ranza asking them to use their best
endeavors to prevent the United
States and Mexico engaging in war.
This information is contained in a dis-
patch received from Rome.

BRITISH LINER IS CAPTURED

By a German Submarine Boat
Believed to Be the
Brussels.

(Special to The Herald)
London, June 24—A British liner
was captured by a German submarine
on Friday and taken to the German
naval base at Zeebrugge on the coast
of Holland. A Lloyd dispatch says
that the captured steamship is likely
to be the Brussels, a ship of 1300
tons which sails from Harwich.

KEYES MAKES ANNOUNCEMENT

That He Is a Candidate For the Repub-
lican Nomination For Governor of
New Hampshire

Concord, N. H., June 24—Harry W.
Keyes of Haverhill, N. H., has made
formal announcement of his candi-
dacy for the Republican nomination
for governor.
For upwards of a year, in fact,
since the last session of the legisla-
ture, of which he was a member, Mr.
Keyes has been urged to enter the
gubernatorial race. He necessarily
has had the matter more or less un-
der consideration much of the time
which then as the matter was forced
upon his attention wherever he en-
countered Republicans who take an
interest in the ability and public
spiritedness of aspirants for office.
He, however, has steadfastly de-
clined formally to come out for the
nomination up to Friday, although
repeatedly his close friends and sup-
porters have been confident that he
would do so, at least since the time
Governor Hollard H. Spanning de-
finitely took himself out of considera-
tion. Coincident with the self-elim-
ination of the governor, the pressure
upon Mr. Keyes has increased, and
today he decided to enter the field.
Mr. Keyes' announcement was as
follows:
"After consultation with friends in
various sections of the state, and at
the earnest solicitation of many of
moreover with careful consideration
of the responsibilities involved, I
have decided to announce myself as
a candidate at the primaries in Sep-
tember for the Republican nomination
for the office of governor. In making
such announcement I may say that I
shall heartily appreciate the support
of such primaries of the Republican
voters of the state.
"If nominated and elected to this
office it will be my earnest purpose
to devote myself unreservedly to the
promotion of the best interests of
the entire state, giving so far as I am
able, an efficient, impartial and busi-
nesslike administration of its af-
fairs.
"Mr. Keyes has the advantage of a
wide acquaintance and great popu-
larity not only in the north country
but also throughout the state. He is a
Harvard man—he was a famous vari-
ety man, and was captain of the crew
of '87—and since his graduation he
has been prominently identified with
the New Hampshire affairs, financial,
industrial, agricultural and political.
He has held many offices of trust in
his own town of Haverhill, has rep-
resented the town in the legislature,
and for many years was a member of
the State License Commission. On
the creation of the present excise
board he was appointed its chair-
man.

FIGHTING IS RESUMED BY RUSSIANS

After a Year's Lapse of Time
in the Carpathian
Mountains.

(Special to The Herald)
Petrograd June 24—For the first
time after a year's interval, fighting
is again in progress between the
Austro-Hungarian forces and the
Russian forces in the Carpathian
mountains, on the western fringes.
The Russians are proceeding through
the mountain passes and Teutonic at-
tacks are being made on the rear
guard.

MAY ALLOW BEER SALES

Oregon Is Not Satisfied With
Present Prohibition
Law.

Portland, Oregon, June 24—Oregon
is not satisfied with her prohibition
law. A proposed amendment to per-
mit the sale and manufacture of
Oregon brewed beer has made its ap-
pearance. The petition to place this
amendment before the voters is now
being circulated.

Many prominent men
The amendment is favored by
many prominent men who supported
the original prohibition movement.

It is urged that a law which per-
mits the consumption of liquor
brought into the state from the out-
side, yet discriminates against a light
beer made in Oregon, from Oregon
barley and hops, is neither logical nor
just and encourages the importation
of the strong, poisonous liquors on
which transportation charges are less
and discourages the use of a light,
non-intoxicating malt liquor.

SIXTY TROOPERS ARE SAFE

Men of the 10th Cavalry Are
Found Near Santa Maria
By Rescue Party.

San Antonio, June 24—Sixty more
survivors of the Tenth Cavalry have
been found. General Pershing report-
ed today. His report caused great re-
lief at Fort San. Houston where it
was feared they had been victims of
the massacre. The sixty troopers
were located near Santa Maria by a
rescue party in charge of Lieut. May-
ers.

German Eastern Army.

Warsaw, June 24—With great cere-
mony the third Field Lodge organized
by the Free Masons in the German
Eastern army has just been opened in
Vilna. The opening was attended by
several generals. The two other Ma-
sonic field lodges are in Kovno and in
Warsaw.

WAR SPIRIT RUNS HIGH

Opinion Prevails in Washington That
United States Will Declare War
Against Mexico

(Special to The Herald)
Washington, June 24—The war
spirit ran high at the National Cap-
itol here today. News of the ambush
and massacre of the men of the Tenth
Cavalry aroused officers and officials
and at no time since the battleship
Maine was sunk in Havana harbor
has the war spirit been so prevalent.
On all sides a demand for speedy re-
prisal was voiced and in administra-
tion circles the sentiment prevailed
that there would be a complete break
with Mexico by the middle of next
week.

Two important steps were taken by
the administration. The first being
instructions to Consul Rogers at
Mexico City to demand the release of
the American troops taken prisoner
at Carrizal, the exact number of
which is unofficially known. Second
that any attempt at mediation on the
part of the Latin-American countries
be rejected by the United States. The
question at issue being a question of
national honor and entirely up to
the United States.

TROOPS START FOR THE BORDER

Entire National Guard of Missouri, Kan-
sas and Wisconsin on Their Way to
Join Gen. Funston's Forces

(Special to The Herald)
Washington, June 24—Brigadier
General Mills, commanding the divi-
sion of military affairs, announced this
morning at 3:30 o'clock that he had
been advised that the entire national
guard of Missouri, Kansas and Wis-
consin, fully equipped and recruited
to minimum strength would start for
the border today. He stated that other
states were coming along well. Many
other states are expected to be in
readiness to join Gen. Funston's forces
by Monday.

GERMANY HAS LARGE RESERVE

Swiss Military Expert Says
Allies Have Big Job
on Hand.

(Special to The Herald)
Zurich, June 24—A Swiss military
expert says in the Zurich Post:
"The hope of the Allies to over-
whelm the German armies on the
western front, with numerically for-
ces, is sure to be dashed. Germany has
1,000,000 entirely fresh troops, be-
cause the recruits of 1916 are now
ready for field service and part are
already at the front. The recruits of
1917 are in training and can be used
shortly to fill gaps.
"The French reserves are used up
with the exception of the class of
1917 and even these youngest troops
may have to be thrown into the
struggle before Verdun if it last
much longer. The large armies organ-
ized by England are only partly avail-
able for immediate service at the
front. At least one half of the British
troops are still insufficiently trained
and cannot be used for an offensive
before next winter. In the meantime
the German recruits for 1918 may be
called to the colors and trained if
this should be necessary but the Ger-
man general staff does not intend to
summon the next class before 1917,
although these recruits are now eight-
een years old and no younger than
many of the English soldiers already
in the field."

MEXICANS MAKE THREE ATTACKS

On Gen. Pershing's Line of
Communication—Three
Soldiers Wounded.

(Special to The Herald)
San Antonio, June 24—Mexican sol-
diers have attacked General Persh-
ing's line of communication three
times during the last two days. The
news received at Fort San. Hous-
ton today, the attacks being made at
Corona Canyon and Pecos Pass. All
attacks were beaten off, but three
American soldiers were seriously
wounded that they had to be brought
to the base.

MOST INTERESTING GAME PLAYED THIS SEASON

Marines and Knights of Columbus Play for Six
Innings and Game Ends in a 3 to 3 Tie

Although neither team came off the field with a victory to its credit, the Marines and the Knights of Columbus gave to the 2000 fans was the most interesting baseball exhibition seen in the Sunset League this season, when they played six innings to a 3 to 3 tie in the battle last evening. This is the second time these two teams have met without either being able to win, the first game going to a 6 to 6 tie. There were probably more sensational plays made in last evening's battle than in any other one game played here this year, and the base running and hard sliding of the players was one of the big features.

The hitting was confined to singles with the one exception of McWilliams who belted out a long hit into deep right, making three bases, and only failing to score on account of his inability to run, owing to an injury to his leg.

Chaplain Scott of the Marine team was hitting like a fiend, making two singles and a sacrifice out of three times at bat. Others batting hard were Wilkinson of the Knights, two hits and a pass in facing the pitcher three times; and "Babe" Tharun, two hits twice at bat. Tharun was sent to bat as a pinch hitter in the fourth inning when a hit was needed, and he came through, remaining in the game as center fielder in place of LeValley.

In the third inning Wilkinson pulled a phenomenal play on Eberhard's hard grounder, making a fine stop and sliding into the base ahead of the batter. Eberhard's catch of Paul Bailey's foul fly in the fifth; McCrary's and Burns' work in nailing runners at second; Mosher's catches and throws off Deleiden to the fourth and sixth; Kelley's peg from center in the sixth, nailing Burns at the plate; one of Sarotta's stops; and the great diving slide of Hamer for the plate, being among some of the circus stunts that called for the greatest amount of applause from the interested fans. The Knights won the loss and took the field.

The Game

1st Inning—Wilkinson singled to center but was out stealing. McCrary to Burns. McWilliams walked. P. Bailey filed to Deleiden. J. Bailey was tossed out by Hamer. ONE HIT, NO ERRORS, NO RUNS.

Deleiden out, Mosher to Wilkinson. Eberhard singled to right, going second on Scott's sacrifice. McCrary out at first on a ball hit in front of the plate. J. Bailey to Wilkinson. ONE HIT, NO ERRORS, NO RUNS.

3d Inning—Kelley was safe on Hamer's bad throw to Scott at first. Scott making a fine stop. O'Brien sacrificed him second. Hamer to Scott. Kelley stole third and scored on Sarotta's single through short. Mosher filed to Llewellyn in right. Kelley out at second, stealing. McCrary to Reynolds. ONE HIT, ONE ERROR, ONE RUN.

Llewellyn out on a fast grounder to Mosher. Hamer and Burns were walked. LeValley fanned. Reynolds out on a high foul fly to J. Bailey. NO HITS, NO ERRORS, NO RUNS.

5d Inning—Dow filed to Mosher. Wilkinson singled to center and was again out stealing. McWilliams filed

out to Deleiden. ONE HIT, NO ERRORS, NO RUNS.

Deleiden was fanned. Eberhard out on a hard grounder to Wilkinson, unassisted. Scott singled and went second when Sarotta booted McCrary's grounder. They pulled a double steal. Llewellyn singled to center, scoring Scott and McCrary would have scored but for Hamer's home on the coach line, interfering with the runner as he rounded third; the umpire declaring him out, retelling the slide. TWO HITS, ONE ERROR, ONE RUN.

4th Inning—P. Bailey walked and was forced at second by J. Bailey's attempted sacrifice. McCrary to Burns. J. Bailey stole. Kelley was safe on LeValley's error in center. Bailey going to third. O'Brien out on a fly to Deleiden. Sarotta fanned. NO HITS, ONE ERROR, NO RUNS.

Hamer walked. Burns out at first. Sarotta to Wilkinson. Hamer making second. Tharun, batting for LeValley, filed the order with a peach of a drive to center, scoring Hamer and taking second on the throw to the plate. Phaneuf pitching. Wilkinson in right. P. Bailey (on first). Reynolds walked. Deleiden drove one at ninety miles in no time which lodged in Mosher's glove and a great throw nailing Reynolds before he could return to the base. ONE HIT, NO ERRORS, ONE RUN.

6th Inning—Mosher walked and was forced by Phaneuf. Burns to Reynolds. Wilkinson walked. McWilliams leaned on give, sending it to deep right for three bases, scoring Phaneuf and Wilkinson. Had McWilliams not been slightly disabled the hit would have been good for the circuit. P. Bailey was out on a foul fly captured by Eberhard. J. Bailey filed to Llewellyn in right. ONE HIT, ONE ERROR, TWO RUNS.

7th Inning—Phaneuf in right. Eberhard retired at first. Mosher to Wilkinson. Scott singled past first and took second on a passed ball. McCrary singled to left, scoring Scott. He stole second. Llewellyn filed to Sarotta. Hamer singled to in field and McCrary was out at the plate attempting to score on the play to first. P. Bailey to Wilkinson. J. Bailey. TWO HITS, NO ERRORS, ONE RUN.

8th Inning—Kelley fanned. O'Brien safe on Burns' error. Sarotta fanned. Mosher walked. Phaneuf fanned. NO HITS, ONE ERROR, NO RUNS.

Burns singled and reached second on Kelley's error. Tharun singled to center and a perfect peg to the plate nailing Burns as he attempted to score. Tharun going second on the play to the plate. Reynolds filed to Phaneuf in right. Deleiden out at first. Mosher to Wilkinson. TWO HITS, ONE ERROR, NO RUNS.

NEW UNIFORMS FOR THE COAST GUARD

Complete Change in Accordance With Regulations
of Revenue Service

Under orders of the U. S. treasury department, the coastguardsmen will on August 1, when they will report for another tour of duty, be obliged to wear new uniforms, entirely different from those they have used as members of the life saving service.

They will have to secure outfits that will be in keeping with those of other men in the revenue service, and it means many dollars spent in completing the change.

Albert H. Reynolds of Newburyport, Mass., who has been visiting the life saving stations all along the coast for years and who has furnished the clothing for most of the surfmen, has the contract to supply the new equipment for all the crews in the first district, which includes the stations from Maine, Maine, to Salisbury Beach and for a number of the crews in the second district, which extends from Salisbury Beach to Cape Cod. He is getting the goods together as rapidly as possible in a difficult market, and expects to have everything in readiness when wanted.

The new regulations will take the gold lace and brass buttons away from the captains of the crews and give the brass buttons to the enlisted men. The captain's uniform will be with high

collar all the way around and will be close fitting. On either side of the opening at the neck will be the insignia of rank. Heavy braid will be in evidence, but there will be no gold buttons.

The No. 1 man will have a double breasted blue coat with two rows of brass buttons and the other men will have a single breasted blue coat and one row of buttons.

The white suits that were worn by the men have been discarded and khaki uniforms substituted. There will be two suits of blue uniforms, two of khaki, special overcoats, sweaters and shirts. There will be uniform caps for fair weather, with privilege of wearing so-wearers in wet weather. The yellow slickers that have given the men such a picturesque effect have been cut out and black slickers substituted. Insignia of rank and service stripes are to appear on the uniforms.

The coast guards are now important units of the U. S. revenue service, and auxiliary to the navy department. It is understood that the captains of crews, who hold rank as warrant officers, will eventually be expected to carry revolvers and that the enlisted men will be expected to become proficient in the use of rifles.

WITH THE LOCAL SPORTS

Phil Schlossberg of Boston, the former heavyweight champion of the navy, who refereed the bouts at the Stockton A. C. on Wednesday evening, called on us early Thursday. We have always had a pretty high opinion of Phil. He called to ask why we differed with him on his decision of the semi-final bout between Harry Ab Chung of Salem, Mass., and Tommy West of Manchester. After Phil was through telling his version of the fight we thought even more of him than we did before.

Mr. Schlossberg said: "I saw by the paper this morning that we failed to agree on the semi-final result last evening."

"I am sorry," he was told, "and I suppose that you have called to find fault."

"Nothing like that for a minute," he said. "I guess that you were right in the way you looked at it, but I want to tell you why I gave the fight to West. My sympathies were with the Chinaman, as he was the lighter man, but there was a great deal of difference in their style of fighting and West damaged his opponent, weakening him as one round followed another."

"In a fight of that sort, where no ringside weight is called for I have to count them as even. Chung hit the cleaner blows, throughout. The eight rounds, out-boxing West, all of the time. But at the end of the fight Chung was a whipped man. He was too weak to do effective work, but continued to fight clean. From a boxing standpoint Chung was the better man, but as a fighter, West won. His punches, although not as clean as Chung's, were harder and did more damage."

"I didn't like West's roughing tactics, especially his butting, which he started several times. I warned him to stop that and he did. I would not have bothered to even warn him had his butting done Chung any serious damage, but would have disqualified him. Chung fought a good battle and I was as sorry that I felt obliged to decide against him as he was to learn of it. And I would like to see him against a man not quite so heavy as West, and with his style and cleverness, he couldn't lose. The next time I hope we can agree on the results, and as it was the results which counted, I had to give the fight to West when he finished the stronger man and could have gone on indefinitely."

Phil Schlossberg is a good referee and a good fellow.

If the Marines are playing the same brand of baseball this afternoon as they showed yesterday against the Knights of Columbus, two pretty fine games should result. Hamer will probably win in one of the games as he is a pretty good long-distance man. It has been remarked many a number of times that he pitches three games every time he shows up on the field. After pitching an inning he keeps on working over near the third base bleachers, "warming up." This afternoon the Marines are to go against both the Morley Button Company and the Widger Shoe Company and before evening there is likely to be a shake-up in the league standing.

Some of the Boston papers were far from complimentary in the discussion of Dave Powers, following his work here last Wednesday against Joe Stutz of the Montana. Dave's idea of fouling isn't relished by the fans who like clean sports. He had better get a real job and go to work as his fighting days in New England are getting short.

These who have been yelling for Saturday afternoon baseball games will now have a chance of showing if they meant it or were throwing a bluff. It is up to the fans and the players will work better before a big crowd than before a handful of people. The league needs the support of every fan in the city and in return they are putting up pretty fine sport.

Sixteen Carloads Taken by Army Officers for Shipment to Texas for Use of United States Troops

Shamokin, Pa., June 23.—Sixteen carloads of ammunition consigned to New York for the allies was requisitioned in the Northumberland yards today by army officers of the United States. The cars were immediately re-routed to Buffalo, whence they will be sent to the arsenal at Fort Worth, Tex.

Columbus, N. M., June 23.—Mexican bandits are today reported to have invaded the United States 50 miles west of here. The report stated they were driving off horses from Parker's ranch in Mayas valley, southwest of Hachita, N. M. Loss of life or fighting was not mentioned. (Deletion by censor.)

Washington, June 23.—Acting upon instruction from Gen. Carranza, Mexican Ambassador Arredondo today called upon a number of Latin-American diplomats and explained that the constitutionalist troops in Chihuahua had been instructed not to attack American troops unless the latter take the aggressive while the present diplomatic negotiations are pending.

Washington, June 23.—Secretary of War Baker today issued orders to every department commander to send his militia forces to the border as rapidly as he can equip them.

Washington, June 23.—A lengthy note from the Mexican minister of foreign affairs was received today at the foreign office. It set forth the opinion of the Mexican government that war with the United States was inevitable on account of the methods employed by the American government, and asserted that all the republics of Central America would be affected by a conflict.

The Peruvian government returned a carefully worded reply, couched in friendly terms, and expressing the hope that peace would be maintained. Ordered to See if Japanese Warships Are Near Mexico.

Washington, June 23.—The navy department today took cognizance of a report that Japanese ships are in western Mexican waters, when Secretary Daniels instructed Admiral Winslow on the San Diego at La Paz, Lower California, to investigate. In making the announcement of this move, Daniels said: "Such rumors have been current at numerous times and have always proved unfounded."

Perishing Wires Mexicans Evacuated Casas Grandes.

San Antonio, Tex., June 23.—Gen. Pershing has wired Gen. Funston that the Mexican garrison has evacuated Casas Grandes. He made no mention of having occupied the city. Funston was directed to doubt press reports that Pershing had declared martial law in that city.

York Beach.

The recent few days of pleasant weather has caused quite an influx of summer visitors to this popular resort and as the last of the school graduates will be concluded this week, it looks as if the beach season would be opened much earlier this year than in the past.

That indications point to a busy season at York is shown by the increasing demand for cottages and by the booking ahead at the various hotels. During the past few days nearly all of the un-let cottages at Long Beach

and Short Sands have been rented, while at the Harbor about half of the summer colony has already arrived.

A manager of one of the larger hotels recently stated that the house was booked away ahead of last year at this time and that letters were pouring in every day, asking for accommodations. The same is said to be true of all the other houses. Several of the hotel have already opened their doors and the remainder will be open before the middle of next week.

On Summer Schedule.

Next Monday the York Harbor and Beach railroad will commence running trains on the summer schedule, which will give excellent train service both in and out of York. The Atlantic Shore line railway is running hour cars to Kennebunk and will soon start on the half hour time to Portsmouth. The mails have been on summer time for several days, the local ball room will be opened Saturday for the season and the moving picture houses and other amusement places will be running in a few days. The rush of the season is about to begin and every one is looking forward confident that it will meet all expectations.

Boxing Notes.

A change to see another now faced at the Armory A. A. will be afforded the members of that organization next Tuesday night when Joe Welling of Chicago makes his debut in a 12-round bout with Jack Britton of New York.

Welling comes to Boston well recommended. He has fought many good bouts and invariably has been a winner. In California he demonstrated great speed before the closing of the game. Then he went to Australia with Jimmy Clabby and enhanced his reputation.

He has repeatedly tried to secure a bout in this city, but there never was an opening until his staidmate, Kid Lewis, decided to go to South America to box Albert Badoud. Welling is confident he'll make good, although he realizes that he will face the cleverest man in the welterweight class in Britain.

His rangy style, skill and general knowledge of the game may send him through with flying colors. He is young, white, Britton is a veteran. Both are trained to the minute for the bout. Each had been working and strange to say both had their matches called off. Lewis disappointed Britton, while Charlie Thomas of Philadelphia performed a similar stunt for Welling at Providence. The members of the Triple A. are looking forward to a fast contest.

Johnny Noonan of Dorchester and Billy Myers of South Boston have been engaged to meet in the semi-final. They fought eight spirited rounds recently, Noonan winning. Myers believes he can reverse the decision. Harry Ah Chung of Salem, who fought a hard battle with Jimmy Kenny of Wakefield recently has been signed for six rounds, and Tony Valtan and Teddy Murphy will open the show with a six round bout.

Artists Well Worth Hearing.

The program to be rendered by Sig. Ferruccio Corradetti, Mrs. Bess Perry-Fischer, Mr. Enrico Baraja, Mr. Alfred Fischer at the concert to be conducted by the class of 1916, Plymouth Business School, at Pierce hall next Monday evening, is sure to please the discriminating taste of any audience appreciative of the best in music. Very rarely has Portsmouth an opportunity to listen to artists of this standard.

Referring to the concert given by them in Plymouth, Mass., in the Old Colonial Memorial of March 10, 1916 says: "The difficult and elaborate program of sustained dramatic intensity was rendered with a delicacy of interpretation, a command of musical phrase and feeling, a lucidity and sweetness of voice, so complete as to hold the listeners quite spell-bound."

Mrs. Fischer has developed from the pure lyric soprano of her Plymouth days, until she has now a rich and thrilling voice of operatic range and power, and none of the old sweetness is lost, as was felt when she sang "Annie Laurie" tenderly and with a haunting wistfulness.

In all the evening was a well-earned triumph for Mrs. Fischer, her husband and her teacher, Signor Corradetti is an accomplished artist, possessing a rich baritone voice. Mr. Fischer is not a professional flutist, but far more expert than most professionals. His selections were all, too brief and few.

ITALIAN FORCES GAIN STRONG POSITION

Rome, via London, June 23.—The War Office today issued the following statement on military operations:

"On the Arsa Valley we occupied new position beyond Rondini, east of the Mezzana peak, and on the Lora spur, west of Monte Pasuto. Rifles, ammunition and bombs were captured from the enemy."

"Along the Posina Astico front, there has been artillery activity on both sides."

"Attacks by enemy detachments in the regions of Cataglia and Monte Sili were repulsed."

"On the Asiago plateau we maintained our pressure against the enemy's positions."

"In the Carnia region and on the Isanzo, the artillery activity was especially intense along the upper Buti."

"Explosions and fires were caused by our batteries at several points on the enemy's line."

Russians Capture Radautz.

Petrograd, June 23.—The War Office announced the capture of the town of Radautz, Bukovina, thirty miles south of Czernowitz.

The official statement follows: "The Germans are violently bombarding the region of the Iksul bridge head."

"On Wednesday night, following artillery preparation, the Germans took the offensive on the front of the Iksul position, along the Poniewsch railway. They were everywhere repulsed."

"In the region in front of Dubatowka, twelve versts south of Lake Vichnevske, the Germans, after intense artillery preparation, launched an offensive and seized a portion of our trenches. We rushed reinforcements to the scene and drove the enemy back to his own trenches."

"South of the Krevs the Germans crossed the River Krevilanka. Our fire prevented their further advance and drove them back to the west bank of the river."

"On the Oginski Canal and Jasolda River there has been artillery and rifle fire. During the course of the day our fire brought down two German aeroplanes within our lines, one two versts south of the Listopady station on the Bologos-Bedletz railway and the other near the Jotk Farm, ten versts southeast of the mouth of the Oginski Canal. Both the machines were completely destroyed and their pilots killed."

"In the region of Gruzatyn the enemy attacked in mass formation, but was put to flight, leaving on the ground numbers of killed and wounded."

"In the region west of Sokol on the Stry, we repulsed, by a counter attack a German offensive, and captured about six hundred prisoners and some machine guns. In the same region, the enemy's heavy artillery launched gusts of fire from the region of Mylik."

Slavs Make No Prisoners.

"In the region of the Radmeste, on the Stokhod, west of Svidulke, and east of Verantelino, extremely violent fighting continues. We made no prisoners. This is explained by the exasperation of our troops, who refused quarter to the Germans, who had been employing explosive bullets. In these attacks a brave detachment of territorial reserves from Yaroslav participated. Their commander was wounded but refused to quit the ranks."

"On the Strya west of Galvroronka our troops captured portions of the enemy's trenches."

"We are continuing our pursuit of the enemy on the extreme left wing (in Bukovina). We have occupied Radautz and taken an additional twenty-two officers and a thousand men and three machine guns and twenty-seven packages of machine gun ammunition."

Victory for Briand.

Paris, June 23.—The French Government has come safely out of the ordeal of the secret session, obtaining a vote of confidence by 410 to 97.

The secret proceedings, which extended over seven sittings, were welcomed by the Government, which was enabled to explain its actions freely, and by its critics, who, by reason of the exigencies of national defence had been unable to give particulars to support their complaints in a public session.

On the resumption of the public session several motions were read by the President, only one of which, however, was accepted by the Government. This was a lengthy resolution drafted jointly by the presidents of the different groups, which after expressing

confidence in the Government set forth that the secret sessions had given the members of the Chamber a valuable insight into the general conduct of the war and that the Chamber had decided to institute and organize a delegation to exercise, with the assistance of the Government, a direct general check on all services supplying the needs of the army at all points, front and rear.

While having no intention of interfering with the conception, direction or execution of the military operations the Chamber held it was its duty to see that preparation of an offensive and defensive nature, both industrial and military, were carried on with a care, energy and foresight commensurate with the heroism of the soldiers of the republic.

After the passage expressing confidence in the Government was adopted the motion as a whole was passed 414 to 50.

Hill 304 Again Attacked.

Paris, June 23.—West of the Meuse in the Verdun section, the Germans again attacked Hill No. 304, and there was lively infantry fighting near Dead Man's Hill. There was heavy artillery fire all night in this section. It was particularly violent east of the Meuse around the Vaux front.

The statement says: "On the left bank of the river Meuse the Germans have renewed their efforts in the region of Hill 304. Two attacks with hand grenades were checked by the fire of our machine guns. During the night there was spirited rifle firing in the Avocourt

wood and at Dead Man Hill. There which weighed three ounces and was also an intense bombardment in measured 'eight' inches 'the long way' the section of Ennes and Chantancourt road."

"On the right bank of the river there Red, although named for one of the was considerable activity on the part of the smallest states in the Union, produced of the artillery along our front one which weighed 'goin' and measured from the Meuse as far as Moulinsville eight and one-half inches." This was particularly noticeable in long way and six and three-quarters the region west and south of Fort the short way, around Vaux. Here the enemy used to a considerable extent shells which produced records it is going to be pretty tough a gas irritating to the eyes. At Epar on the farmers who have to feed them, a minor German attack resulted in complete failure."

There is little gain for the farmer, owing long hens which are laying, record breaking eggs as it still takes twelve to make a dozen and the public is paying about all they can be pushed for at the present price. Big eggs may contain more food value than the

"Reason-Why" Tires

GOODRICH "Barefoot" Tires are light in weight, and close grained. This proves them relatively free from the usual inert substances or "fillers," that give excess Weight, stiffness, and grind, to Tire roads.

More than 200 different Makes and Brands of Motor-Car, and Truck, Tires were manufactured and sold in U. S. A. last year, 1915.

These totalled about 12,000,000 Tires. Of that 12,000,000 total Tires, the B. F. Goodrich Co. made and sold one-fourth.

Yet, Tires are only one of the 267 different lines of Rubber Goods made by the Goodrich Rubber Factory, which is the largest in the World, with a 47-year Experience.

This indicates the "Reason-Why" Goodrich Best-in-the-Market Fabric Tires can be, and are, sold to Consumers (via Dealers) at the lowest prices in America, per delivered Mile of Performance.

Portsmouth, N. H., Saturday, June 24, 1916.

The Prevalence of Perjury.

The district attorney of New York says in an interview that perjury is shockingly common in the courts of that city. He declares that perjury is committed in a substantial proportion of the civil suits tried there, and in a large number of criminal cases. And the district attorney is not alone in this conviction. He says the judges of the city and supreme courts are of the opinion that fully one half, if not more, of the cases coming before them are determined on false testimony.

This is not idle gossip. It comes from a man who is in a position to know what he is talking about, an official who would not make such statements for the purpose of hearing himself talk. It is a very serious reflection upon the machinery of justice in the largest city in the country, and points out a condition that should be corrected if correction is possible.

There is no room for doubt that what this New York official says is true, and there is reason to believe that it is just as true of other cities as it is of New York. Men who as officers, reporters or in other capacities have become familiar with the work of the courts are convinced that the crime of perjury is one of the most common as well as one of the most serious in this country today.

The seriousness of the offense is easy to understand. The courts are the last resort as between man and man in the settlement of their differences, and as between society and the criminal elements. If the efforts of the courts to insure justice are to be thwarted by false swearing it is clear that individuals and society will be denied the protection to which they are entitled under the law.

The New York official who talks thus plainly of one of the most glaring evils of the day thinks it might be well to have court assistants to specialize on the subject of perjury with a view to bringing offenders to justice and breaking up a most vicious and demoralizing practice. If necessary such officials may well be provided, but would it not be possible for the courts to do more than they do toward the elimination of this grave offense against law and order and the welfare of society? In New York, where the crime is admittedly so common, there was not a single case of perjury prosecuted last year. This fact furnishes its own commentary. If the courts need assistance in this matter let them have it. But first let them show what they themselves can do.

The issue between the railroads of the country and their employees regarding working hours and wages has a rather ugly look just at present, but it is sincerely to be hoped that it will not result in a general strike, which would be nothing short of a calamity to the country. And the employees should not forget that in case of such a calamity they and their families would occupy front seats in the mourners' room.

A bomb in a mail bag exploded the other day at Butte, Mont., while the mail was being changed from one train to another. No one was injured, but the fact that the package containing the bomb was addressed to the governor of Utah must have been disquieting news to the chief executive of the Mormon state.

The new president of the Union Pacific railroad began his railroading career as a telegraph operator. There have been other instances equally striking in the railroad world and other lines of business, and yet there are those who say there is no chance for the young man in this country.

A correspondence school for imparting military instruction has been opened in New Jersey. It would be better for the world if it could be brought to the point where wars could be conducted by correspondence. Then indeed would the pen be mightier than the sword.

A number of men have been arrested in Boston on the charge of complicity in an arson trust, the business of the concern being to burn buildings in order to get the insurance. If the charges are proved the safekeeping of these men will be insured for some time.

The New York food inspectors are finding the Chinese restaurants the chiefest of the lot. The howlers about the "heathen Chinese" may well stop their noise and do a little housecleaning.

The Republican party Hughes to the line and is prepared to let the chips fall where they may.

Now there is talk of an alliance between Russia and Japan. It's funny what a difference just a few years make.

What is so rare as an equinoctial storm in June?

WORK OF MOBILIZING DIVISION

Maj. Gen. John O'Ryan Tells of Condition of New York National Guard.

Camp Whitman, Hickman, N. Y., June 24.—New York is the only state supplying a complete division of the National Guard to the nation. Twenty-five thousand soldiers are mobilizing here.

In order that the public may know the enormous amount of detail involved in mobilizing a division, it is not possible—or rather desirable—to assemble the whole division here in a single day. Major General John P. O'Ryan, division commander, today made the following statement to the newspaper correspondents here:

"A tactical division consists of three brigades of nine regiments of infantry, a brigade of two regiments of field artillery, a regiment and—in the case of our division—an additional squadron of cavalry, a pioneer battalion and—in the case of our division—a pontoon battalion, a battalion of signal troops, three field hospitals, four ambulance companies, an aero squadron, an armored motor battery, a field battery, supply train and ammunition train.

"This force will approximate nearly 25,000 officers and men. War is efficiently conducted not by trained soldiers, but by trained divisions, which means much more. The difference may be illustrated with reference to the automobile, with the efficiency of which the public is well acquainted.

"If we were to move in a hasty and unconsidered manner the various portions of the division to a mobilization site which had not been properly fitted for the purpose, we would not have mobilized a tactical division any more than if we were to ship to a vacant lot many of the parts of an automobile and then announce that we had a machine ready for movement. Our military history is replete with the evils flowing from ignorant haste in matters of this kind.

The mobilization of the division means much more than the transportation of organizations from their home stations to the designated camp. "Regiments are required to be brought to war strength; that is to say, each regiment of infantry will be recruited to a strength of 1,915 officers and men. The difference in number between existing strength and war strength will be clothed, equipped and armed with property shipped for that purpose by the federal government as under the regulations this additional property is not maintained by the organizations in time of peace, but is held in federal supply depots pending mobilization.

"The newly enlisted men will have to be physically examined and inoculated against typhoid fever, issued and stenciled. More than 7000 horses and mules have to be obtained, examined, accepted, branded and assigned. Property to be left at home stations must be inventoried, much of it packed for storage, and all of it involved for transfer to the commanding officer of the depot unit, who will be the custodian of the property during the absence of the parent organization.

"It is desired that discharged National Guard soldiers, who are not available for active service, promptly apply to the depot units of their old organizations for service in such units. The depot units have their important functions for them to be assisted in receiving and giving elementary instruction to recruits who are to bring the parent organizations to war strength.

"The mobilization site must be prepared as a camp suitable to receive organizations upon their arrival. This means the installation of a water supply with its wells, motors, pumps, storage tanks and distributing pipes. The water consumption of the division will average more than 300,000 gallons per day.

"The quartermaster central for the care of transport animals will be constructed and an emergency animal hospital will be provided. A service station for the supply of gasoline, oil and minor parts for motor trucks and a field repair shop for making minor repairs will be provided.

The camp facilities will include a post office, a telegraph office, an information bureau, public telephone stations, and a post exchange with branch stores which on account of the size of the camp, will resemble the modern department store.

"The feeding of this large number of men and foraging of so many animals will require an efficient freight service, and hence we are now engaged in the installation of a spur from the main line of the railroad, with necessary sidings, platforms, station and storage facilities. Carloads of forage, refrigerating cars of meat and tons of other supplies have been purchased, and are now enroute to the camps.

"As these and other facilities are developed to a point to adequately care for troops, organizations will be forwarded to the mobilization camps but not before. More men have died of disease than by bullets in most of

CURRENT OPINION

White Disunion Will Inevitably Lose Us Our Race Heritage.

The white race is in peril today—in very real peril—but not in the peril which suggests itself to the casual eye.

The average alarmist conjures up the vision of a white race so bled and bankrupt at the close of this war as to fall an unresisting prey to some sudden onslaught of the colored world, overcoming deficiencies in armament by swarming numbers and unimpaired brute strength. A moment's reflection shows any such night mare to be almost unthinkable. Practically the only thing which could bring to pass such a catastrophe would be Europe's decadence. And this, as we have seen, is not to be. The fiery ordeal of earth's worst war has proved the white man sound. That being the case, no matter how exhausting the present war may prove, the white world, if united, will be able to repel any subsequent colored attack.

No; the vision of a mortally wounded white world succumbing a few years hence to the irresistible crush of yellow, brown and black hordes may be safely dismissed as the figment of fear fevered brains. Our peril is more subtle than that and therefore more truly dangerous. We have said that the white world, no matter how exhausted by the present war, will, if united, be able to repel any attack from the nonwhite world.

"If united"—there is the peril. It is white disunion which has brought us to our present pass, which disunion will, if continued in the future, inevitably lose us our race heritage.—By T. Lathrop Stoddard, Noted Historian.

our wars and we propose to contribute our share towards improving our just performance.

"Let me take this opportunity to discourage the ambition to join the New York division of all those men who seek enlistment, but who may have a misconception concerning the discipline which is enforced, the never ending work required of the quiet, soldierly bearing and self-sacrifice exacted, the constant verbiage, and finally, and to be especially emphasized the absence of liquor. In other words, men who wish to be swaggering, lazy drinking soldiers, if they value their comfort and enlistment should avoid enlistment in the New York division as they would the plague, and the public will aid us in our work and confer a public service if they will write me personally, stating fully the facts affecting violations of these standards by soldiers of the New York division."

future. Ford, on the other hand, is infinitely indifferent to the sacrifices for better men than he have made in order that there might be a Detroit in which to make automobiles, and a wonderfully great, rich and prosperous United States in which to sell them.

The country has never been supplied with a more effective or more timely illustration of the sort of citizen produced by a single-minded, successful quest for wealth and the power which great wealth gives. Ford no doubt has the minor virtues in ordinary measure. He is exceptional in his apparent willingness to share some of his inordinate profits with the men who helped make them; but he reveals himself a cowardly traitor to the land which gives him his opportunity when he puts a premium on slackers, and a handicap on patriots, among his working-men.

The future security and peace of the country rest wholly upon the sacrificial spirit of which Detroit supplies a fine example; its peril may be found in that afforded by Detroit. The happiness, prosperity and future progress of the nation is in the hands of the citizens of the country. It is gravely threatened by the Ford. Thank God, there are more browns than Fords!—Manchester Canon.

EDITORIAL COMMENT

The Browns and the Fords.

The Berlin Mills Company of Berlin, N. H., have announced that each employee of theirs, called to the colors as a member of the New Hampshire National Guard, will be kept upon the pay-roll during his entire absence; at half-pay while in the state service and full pay when mustered into the federal service.

Henry Ford, of Detroit, who has won an unenviable notoriety because of his peace-at-any-price views, announces that any employee of his who, as a member of the Michigan National Guard, responds to the call will lose his job and no provision will be made, so far as the Ford company is concerned, for the support of his family, if he happens to be a married man.

Contrast the attitude assumed by the great concern over which the big-hearted, patriotic Brown brothers preside, and that assumed by the many times richer automobile manufacturer of Detroit. New Hampshire rejects in the contrast. Michigan must feel humbled into the dust that she shelters among her numerous manufacturers one so utterly deficient in loyalty and patriotic sentiment, especially a man whom she recently by a queer twist of the political weather-vane honored by casting her vote in a Republican convention in his behalf as a presidential candidate.

How truly and how admirably the real American spirit shines forth in the course pursued by the Berlin concern. Messrs. H. J. O. B. and W. B. Brown have no difficulty in realizing how much they, as Americans, owe to the same spirit now displayed in the call for service in Mexico, and they do not hesitate to show their deep appreciation of its vital importance to the

THE TRUNK AND ITS CONTENTS!

Pays to get a good trunk in the first place—and that need not mean a very expensive one.

Lots of good trunks on the market and if you want to know where to get one to advantage consult the advertising in this newspaper.

Probably you never knew there were so many different

kinds and so suitable to your wants.

And the advertising is an equally safe guide to those seeking things to go in the trunk.

Merchants who advertise are merchants who are building business for a life time. They stand behind the premises they make in the public prints.

BLACKHANDERS DRIVE NEGROES FROM TRAINS

Natchez, Miss., June 22.—Negro brakemen, on the Yazoo and Mississippi Valley railroad are being forced to give up their positions because of black hand letters and other threatening messages, followed by hostile acts. Biceps all over the system are receiving letters telling them to quit their jobs forthwith. Several of those who have failed to take the advice have been shot from ambush. The negroes are terrorized and in some localities fit a the exception to see a negro employed in any capacity on a train.

Get out to the game and you will get all there is coming to you for your money. No advance in the prices for seats.

ABOUT A PLANK

Republicans and Democrats; Now with good grace remove your hats And bow before the plank! In each platform a plank they've won, A tip for every mother's son Who in his heart arrayed is

Against their right to vote. Who sneers?

They're all deserving of three cheers Because through their persistence Determination and honesty And patience and sincere address The goal is at no distance.

The plank means nothing it is said, Referring to each state instead To grant at its discretion The right of franchise, but the fact That they've seen fit at all to act, Is evident confession.

From politicians that they take The women seriously, forsake Their former mood of railing; And such is surely victory For equal suffrage, who see All opposition failing.

Before their cause's righteousness, Which prejudice can not repress Through sexual condition; And politicians realize The weakness which they can't disguise, Of further opposition.

WOMAN WINS FIRST U. S. POSTOFFICE ELECTION

Fort Gaines, Ga., June 21.—Mrs. Susie McAllister has been chosen postmaster at Fort Gaines over a field of several competitors. She has not only received the nomination for the office in the regular way, but she holds the unique distinction of having been elected thereto by the votes of the people as well. Congressman Charles R. Crisp is responsible for this plan of settling contests for postmasterships. In a public speech during the fall Congressman Crisp announced that he would submit the question as to whom he would endorse for postmaster to the patrons of the office in the form of a letter primary, and that he would recommend the person receiving a plurality of the votes cast.

Crisp is a firm believer in local self government. The plan has worked out so well that it is probable other congressional districts will take it up. Congressmen cannot make a mistake in submitting such contests to a letter ballot. They are bound to endorse the will of the majority while at the same time relieving themselves of responsibility. Mrs. McAllister is the first postmaster or postmistress in the United States to have been elected to the office.

STATE TO AID COUNTRY IN LIQUOR PROSECUTIONS

Montgomery, Ala., June 24.—Following close upon the confiscation of more than half a million dollars worth of whiskey at Girard, Russell county, and the murder of Judge W. T. Lawler, of Huntsville, Madison county, because he was relentless in the prosecution of violators of the prohibition law, comes word that the state will aid county authorities in the prosecution of lawless slayers, and that action looking to improving conditions so far as whiskey selling is concerned, will be taken in other parts of the state.

Authorities in the larger cities appear to have the liquor situation well in hand, but in some of the smaller cities of the state men prominent in politics are not wholly in sympathy with the prohibition laws, and have secured control of offices with the result that whiskey sellers are not being prosecuted vigorously.

The new code provides that where county authorities are unable to afford relief the attorney general of the state may take charge of the situation. This was done at Girard and the same course is being followed at Huntsville in the prosecution of the alleged slayers of Judge Lawler.

On the afternoon of June 17 the body of Judge Lawler was dragged from the bottom of the Tennessee river, near Huntsville. It was located after a mysterious message had been received at the sheriff's office over the telephone, saying that the judge was dead and that his body would be found in the river. When the river was dragged grappling hooks brought the body to the surface. It had been weighted down with heavy railroad irons. Two bullet holes had pierced the breast and an autopsy disclosed the judge had been dead before he was submerged in the water.

PROMINENT MEN OF STATE ATTEND

Entire Town of Exeter Pays
Honor to Memory of
Edwin G. Eastman.

All places of business, law firms and the county buildings in Exeter were closed on Friday afternoon while the funeral services of Hon. Edwin G. Eastman, one of the state's honored sons were in progress at the home on High street from 3 to 5 o'clock.

A notable gathering of legal representatives from all parts of the state attended to pay their last respects to the memory of General Eastman, who was for twenty years attorney general of the state.

The clergymen who performed the funeral rites were Rev. George H. Driver, pastor of the First Congregational church, and Rev. Dr. S. H. Dana, pastor of the Phillips church, while Chief Justice Robert G. Pike of Dover delivered the eulogy for the day.

The bearers were John Seamon and Percy Gardner, his associates in law, representing the bar; Gen. Albert N. Dow, representing the Eastern Banking Company; Charles H. Sargent from the First Congregational church, John Tenenpion for the Savings Bank and Chester D. Hatch for the Exeter Manufacturing Company.

The honorary bearers were his classmates from the class of '74 at Dartmouth Judge Frank H. Parsons of Concord, chief justice of the New Hampshire supreme court; Benjamin A. Kimball of Concord, president of the Concord and Montreal railroad; former Governor Samuel D. Felker of Rochester, and Irving M. Drow and Albert Morris of Lancaster, Col. Daniel Hall of Dover, C. H. Pattee, and Professor Scott of the State College at Durham.

Among the attendants were Attorney General James P. Tuttle of Manchester and associate, Benjamin S. Matthews; Judge John Kivel and George T. Hughes of Dover, Judge Calvin Page and Col. John H. Bartlett of Portsmouth, besides a full representation of members of the bar from that city; and Sheriff Ceylon Spence, George E. Morrison, H. J. Brown, E. K. Woodworth and Benjamin W. Cough of Concord, Sumner Wallace, Judge Magill of Rochester, ex-Gov. Charles M. Floyd of Manchester, besides scores of others from this state and Massachusetts. Burial was in the family lot in the Exeter cemetery.

KITTERY

Warren Hayford of Locke's Cove has gone to Boston where he will attend the summer session of the Massachusetts Institute of Technology.

There will be a big meeting of the Kittery Volunteer Fire Department on Wednesday evening, July 5 at which time there will be a smoker and a general good time.

Miss Pearl Meader, formerly teacher at Thiel Academy who has been teaching in the high school at Skowhegan, arrived today to pass the week end with Mr. and Mrs. Ira Keene of Locke's Cove.

Mrs. Henry Brooks who is visiting her parents, Mr. and Mrs. George Hayford of the Gopher's Nest, passed Thursday in Boston.

Through the generosity of the merchants of Kittery there will be given a band concert at the Corner on next Thursday evening, June 29, beginning at 7:30 o'clock. It would be an excellent plan to give these concerts once a week during the summer. It would mean a big attraction for the town. Can't we have them? We can if the people of the town will all get together and support them by popular subscription. Let this be done. Every little will help toward the fund. Those desiring to contribute toward the same may leave their contributions with Mr. Joseph P. Segrue who has charge of the arrangements.

The reception and ball of the class of 1916, Thiel Academy, was held at Wentworth hall on Friday evening and was a fitting conclusion to the four years of happy school days just ended. There was an unusually large attendance, there being many from Kittery Point and Portsmouth. Music was furnished by Marden's Orchestra of Portsmouth and it was a fine program indeed. Dancing was enjoyed until midnight and was preceded by a reception at which the seniors and the teachers were present. The dance order was unusually attractive and many remarked at its beauty and simplicity.

Memorial services will be held at Grange hall Sunday afternoon at 3 o'clock in which members of Riverside Lodge, L. O. O. F., York Rebekah Lodge, Dringo Encampment and Canton Hives will participate. Rev. Percy W. Caswell, pastor of the Court Street Christian church, Portsmouth, will give the address. The members will assemble at the lodge rooms at 2:30 o'clock and march to the hall in a body.

Mr. E. E. Lamoureux left this noon to pass the week-end at his home in Manchester, N. H.

MEMPHIS TO OFFER U. S. COMPANY OF GROCERYMEN

Memphis, Tenn., June 24.—Wholesale grocerymen of Memphis are organizing and fully equipping a company of men whose services will be offered the United States government in the event of hostilities with any foreign nation. An enlisted U. S. officer will drill the company during spare time. The company is made up of employees of the grocery houses. It is probable other commercial bodies will follow their example.

A TWICE-TOLD TALE

One of Interest to Our Readers.

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a Portsmouth man is confirmed after four years.

J. W. McMullen, insurance agent, 553 Maplewood Ave., Portsmouth, says: "I know that Doan's Kidney Pills are good. They have been used in my own family for several years across the back, lameness and soreness through the joints and trouble from the kidney secretions and have been found to be just as represented in every way."

The above statement was given on June 17, 1911, and on October 21, 1915 Mr. McMullen said: "I have used Doan's Kidney Pills personally and from the results I received, I recommend them highly. I have endorsed this medicine before and I again willingly do so."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McMullen has twice publicly recommended. Foster-McMillan Co., Props., Buffalo, N. Y.

NEW HOTEL JANVRIN OPENED WITH BANQUET

Mr. and Mrs. D. A. Munsey, Host and Hostess at Hampton Beach Hotel, Entertained Guest from This City on Formal Opening of Their New House

On Friday evening the new Hotel Janvrin at Hampton Beach was formally opened for the season by a banquet given by Mrs. D. A. Munsey, the guests being the officers and employees and their ladies of the New Hampshire National Bank, the Portsmouth Trust Company, and the press of this city. The guests were received by Mr. and Mrs. Munsey and were conducted on a tour of inspection of the hotel, finding it one of the finest of the modern resort hotels.

The building is up-to-date in all its appointments, with every desirable convenience at the command of the guests and is fully furnished throughout. The house contains fifty guest chambers and a beautifully appointed dining room with accommodation for 250 guests. The guests of the evening were held in their praises of the hotel offering Mr. and Mrs. Munsey many well deserved compliments.

After the inspection of the entire building, which was so nearly perfect as to allow of no adverse criticism in any particular, the guests of the evening were conducted to the large dining room and were seated at one table. Calvin Page of this city, officiating as toastmaster. A sumptuous banquet was served and at its close the toastmaster called on several of the guests who responded readily.

Those present included Hon. Calvin Page, William C. Walton and wife, Morris C. Foye and wife, Fred H. Ward

WITH THE SPORTS

(By Frank G. Menke)

King champions of other days emit groans every time they think about the money that is being paid to the winners of this era.

In the bygone days the warriors used to think that fortune heaved its sweetest smile at them if they got a thousand or two for their efforts. Now a top-notch fighter at anything that doesn't run far into the five figures.

Frank Moran will get \$25,000 for his efforts against Jack Dillon on Thursday evening, June 29, and Dillon will draw down \$15,000. That is a \$10,000 purse; a sum far beyond anything that even the greatest champions of the old days received. And both men are non-champions. The chances are that neither will ever become the king

of his division, Jess Willard is too healthy.

"The old boys fought better, harder and longer than the present crop of ringsters," said Jack McAuliffe, the only retired champion. "If the present fighters get from \$10,000 to \$25,000 or \$30,000 for their efforts, then the men of other days ought to have got about four times as much. But they didn't. They got about one-fifth—or less."

Fitzsimmons fought many fights for less than \$1,000. Corbett as showed, as he was in a financial way, frequently battened over a decision route for about one-twentieth of what Moran will get for ten short rounds. McCoy, Jeffries, Sharkey, Sullivan, and the other heavies often times got as much for a whole fight as some of the men today get for one round.

Joe Gans ranked as the greatest lightweight of all time, earned about as much during his entire ring career as Freddie Welsh, the "Joke champion" has garnered in the last year or so. And Joe Gans fought real fighters, while Welsh has done little else than to give the folks dancing exhibitions.

And so it goes. Over in Paris the fight fans regard George Carpentier as the greatest scrapper of the age. But the cops in that once time gay town have differently fewer. They vote unanimously for Willie Lewis, who is acting just now as trainer for Frank Moran.

Paris became a Roman immediately after the outbreak of war in August, 1914. It wasn't safe for American women to travel alone through the streets. The American ambassador therefore pressed into escort service all the American men he could find. He discovered Lewis who happened to be in the city at the time, and delegated him with another American, to take four American women to the railroad station.

It was impossible to get cabs and so Lewis and his party walked. They had to pass through one of the roughest sections of the town. In the heart of the Apache district, seven of the gangsters stepped out from the protection of a building and began to hurl insulting remarks at the women.

"Cut it out," admonished Lewis in French, whereupon one of the Apaches strode toward one of the women and attempted to grab her by the arm.

Like a flash of lightning Lewis struck. His fist crashed full into the face of the Apache and the target went to the ground as though a ten-ton safe had fallen upon him.

"Take the women and get them out of here quick," said Lewis. "We're going to have a bit of excitement."

And he was right. The six other Apaches closed in upon Lewis. Knives flashed and a billowy swish through the air. But Lewis instead of retreating came on and into the pack. In the hey-day of his fighting career he ranked as one of the greatest American pugilists. And that night in Paris he brought the wallop out of his wrappings—and the Paris police never have forgotten it.

Lewis shot left and right with the rapidity of a machine gun. Sometimes one blow would send a frow to the ground; other would have to hit two or three times before he scored a knockout. Time and again he barely escaped the fingers of a knife. Once a knife landed on his shoulder. But always he kept his feet and knocked down the ruffians as fast as they got to their feet.

At last the police came. The Apaches, Lewis and his American escort, who had come back and joined in the battle toward its end, were taken to the police station. The ladies emerged from the place of safety where they had been taken and joined the party in court.

When Lewis told his story to the police and the officers had secured one good look at the battered faces of the Apaches the captain exclaimed: "You are a remarkable man. Your courage and bravery in fighting these ruffians is remarkable. I discharge you from custody and I give you the thanks of the department for having made it possible for us to round up this gang. You are the greatest fighter in the world."

BOSTON LETTER

Boston, June 24—Starting today 65 dentists assembled at the Forsyth Dental Infirmary and gave free dental service to the militiamen of Boston who are in need of dental treatment. The dentists are able to care for 500 patients a day. It is expected that the men will take advantage of this offer and that every militiaman from Boston will have his teeth in a perfect condition before he is mustered in for service in Mexico. The dental work will be continued tomorrow and Monday. A letter was forwarded by Mayor James J. Curley to Adjutant-General Cole offering the free services of the big dental infirmary to the use of the Boston Militiamen and the offer was gratefully accepted. It is recognized by army officers that proper care and attention to the teeth is one of the first requirements for militiamen.

The Salvation Army fresh air camp for poor mothers and children at Canton opened today. Youngsters and mothers will stay two weeks. After their return another group of mothers and children will be sent to take their places. This work will be kept up during the summer months, the camp closing the first week in September. Last year the Salvation Army accommodated 2751 mothers and children, and this year Colonel Clifford has arranged to erect two new houses which will make it possible for the army to take care of a larger number.

Considerable progress has been made in reforesting the land included in the Wachusett watershed during the past year. Not only have many acres been cleared of undesirable growth but new plantings have been made and certain of the roadways have been lined with sugar maple saplings as a part of the work to establish a shaded highway. In connection with the plan which the Metropolitan Water Works has devised to establish shade trees along the property on the highways bordering the reservoir, over one thousand sugar

FOUNTAIN IN COMMISSION

Useful Gift of Mr. Thomas A. Ward Is Already Proving Popular.

The bronze fountain presented to the City of Portsmouth by Thomas A. Ward has been installed in the playground at the junction of Middle street and South road and is already proving very popular with the traveling public as well as those who frequent the playgrounds. The fountain was cast by the Mott Manufacturing company of New York and bears the inscription, "Presented to the City of Portsmouth by Thomas A. Ward, 1916." There are four drinking cups for the convenience of the public. The design of the fountain was first seen by Mr. Ward while in Portland, Oregon and it is believed to be the first one of this pattern installed in this section of New England.

In the playgrounds of the Lafayette school, the swings, double shutters and letter boards presented by Mr. Ward have been installed and are affording the young people of the school and that section much enjoyment as was evidenced on Friday when a reported for The Herald visited that locality.

HOTEL WENTWORTH INFORMALLY OPENED

Official Staff for Season of 1916; Haverhill Guests Have Delightful Time.

The Hotel Wentworth opened informally on Thursday entertaining the Haverhill Commandery, Knights Templar, on its annual pilgrimage. The party numbered over one hundred with a band of twenty-five pieces and enjoyed golf, tennis and competitive games throughout the stay. An elaborate banquet was the closing feature of the event, but many remained until Saturday.

The official staff of the hotel for the season of 1916 will be the following: Manager—H. W. Priest.

FREE HAND TO DRAFT GUARD

Washington, D. C., June 24.—Legislative approval of President Wilson's use of the National Guard in the Mexican crisis was voted almost unanimously by the house yesterday in adoption of a resolution declaring the existence of an emergency and giving the President a free hand to draft as federal soldiers all guardsmen willing to take the required oath. The senate is expected to concur tomorrow.

A million dollars would be appropriated by the resolution to aid dependent families of the guardsmen drafted.

Distribution of the fund would be left to the war department with the restriction that no family should receive more than \$50 a month.

Only two representatives, a Specialist and a Democrat, voted against the resolution. During the debate preceding its adoption several Republicans attacked the government's Mexican policy and insisted that President Wilson should have informed congress of the emergency instead of expecting it to act on its own initiative. No one attempted to deny however, that an emergency had arisen and Republican Leader Mann, former Speaker Cannon and others declared that in reality a state of war existed.

WALLIS SANDS NOTES

Mr. and Mrs. Edward Carman are passing the day with their daughter Mrs. Thomas Noyes.

Frank Brown, assistant road commissioner is passing the day at Wallis Sands.

Miss Dorothy Yeaton has been entertaining a party of Mt. Holyoke girls at Wallis Sands.

Albert Bishop and family of Miller avenue are to occupy a cottage at Wallis Sands this summer.

CAVALRYMEN ATTACKED.

El Paso, June 24.—Troopers of the Eleventh Cavalry while on their way to rescue possible survivors of Carranza's breachery at Carrizal were attacked by Mexicans near San Fernando and engaged in battle. This report reached El Paso shortly after noon today. No official confirmation could be obtained from General Bell at Fort Bliss.

CARRANZA WILL REJECT NOTE.

Chicago, June 24.—General Carranza will refuse and reject the terms in President Wilson's latest note, is the news received here by Clement Curtis & Co., a brokerage firm from their agent in Mexico City.

FLEURY CAPTURED.

Berlin, June 24.—After a battle waged all night the Germans have succeeded in taking Fleury, an important French position. The Tréport works north of Fleury were also captured.

WILL TAKE NO ACTION.

Buenos Aires, June 24.—The cabinet met today and voted that Argentina would take no action with other South American governments to prevent war between the United States and Mexico.

PILGRIMAGE TO CENTRE HARBOR

De Witt Clinton Commandery Knights Templar, Observes St. John's Day.

About fifty members of De Witt Clinton Commandery, Knights Templar, headed by North Berwick Cadet band, Fremont Allen, leader, left Saturday morning on their annual St. John's Day pilgrimage, which this year is to Centre Harbor, N. H. The Sir Knights left their gym at 5:15 and marched through Congress, Pleasant, State, Middle, Congress, Vaughan, Deer to the Boston and Maine railroad station. At 9 o'clock a special train in charge of Conductor Frank E. Moore, with the party left for Alton Bay, where a transfer was made to a steamer for a sail of twenty-five miles over Lake Winnepesaukee. The party arrived at the Colonist in ample season for dinner. They will stay at Centre Harbor until 5 o'clock Sunday afternoon and expect to reach home at about 9 o'clock Sunday evening. Owing to the fact that St. John's Day fell on Saturday, a number of our local business men were prevented from taking part in the pilgrimage.

NOTICE.

THE ARIONOLA

The Most Unique Construction and Greatest Phonograph Value on the Market.

Our principle of sound reproduction, the durability and superior finish, its small size and light weight, the sweet, natural tones and perfect enunciation have made the ARIONOLA so successful that a demand has been created for the two larger types which are now on the market, a spring motor machine at \$50 and an electric motor machine at \$75.

\$15.00 Model

The wooden sounding board principle, so popular in the small model, is embodied in these new types. The cabinets are of natural mahogany and of the finest workmanship throughout.

For camps, canoes, auto trips and for use in every home, the ARIONOLA surpasses other makes at much higher prices.
